**OTC 2023**

# About ApexBrasil

The Brazilian Trade and Investment Promotion Agency (ApexBrasil) works to promote Brazilian products and services abroad and attract foreign investments to strategic sectors of the Brazilian economy.

ApexBrasil carries out several initiatives aimed at promoting Brazilian products and services abroad, such as prospective and trade missions, business rounds, support to the participation of Brazilian companies in major international trade shows, visits of foreign buyers and opinion makers to Brazil to learn about the local productive structure, among other business platforms that also aim at strengthening the Brazil brand.

The Agency also acts in a coordinated way with public and private players to attract foreign direct investment (FDI) to Brazil with a focus on strategic sectors for the development of the competitiveness of Brazilian companies and the country. Internally, there is a concern to provide employees with an egalitarian and fair organizational environment. This was recognized with the Great Place to Work certification, received in 2020, 2021 and 2022.

## Açoforja S.A

 [acoforja.com.br/en/](http://acoforja.com.br/en/)

### Andreison Freire Sá

 [afreire@acoforja.com.br](mailto:afreire@acoforja.com.br)

 +55 31 98489 5709

Açoforja is an open die forge with medium/heavy forging capacity, it is certificated by ISO 9001/14001 and manufactures forgings components in vacuum degassed carbon steel or low alloy steel with weight up to 18,000Kg and length up to 12.0 meters. Açoforja has heat treatment furnaces qualified to fulfill API standards requirements. Açoforja's parts can be supplied completed machined, rough machined or in raw condition.

Christmas Trees, Manifold [Parts/Components], Connectors, Plats, Valve Body, Support Rings, Alloy Tubes, Dummy Spool, Bars and Discs.

## ALTAVE

 [www.altave.com.br/en](http://www.altave.com.br/en)

### Leonardo Mendes Nogueira

 [lmnogueira@altave.com.br](mailto:lmnogueira@altave.com.br)

 +55 12 99737 3370

ALTAVE's Visual AI detects occupational safety deviations, such as PPE compliance and red zone management. Its proprietary software provides real-time, relevant information to support decision-making and prevent serious accidents. Its turnkey solution has over 50K monitoring images hours on rigs alone, driving safety and operational excellence in the Oil & Gas industry.

ALTAVE Harpia proprietary software provides relevant information interpreted by AI in real-time through a customized interface, with alerts, live transmission, and reports stored in the cloud or on a local server. This technology autonomously interprets and detects anomalies on offshore and onshore activities, supporting decision-making, and providing KPIs for operation management and training.

## Altus Sistemas de Automação S.A.

 [www.altus.com.br](http://www.altus.com.br)

### Leonardo Pinzon

 [pinzon@altus.com.br](mailto:pinzon@altus.com.br)

 +55 22 99261 5286

Altus has been delivering solutions to customers and partners from different sectors of the industry for 40 years. From very small systems to complex applications, Altus range of products can meet all demands of the market, delivering features that fill each and every element required by the customers' needs, especially for the Oil & Gas industry. Acting globally, the company is constantly evolving in order to be competitive and to add value to its partner's business.

Nexto Series presents resources for all stages of your application life cycle with its integrated programming and configuration environment based on IEC 61131-3 standard, speeding up development and reducing engineering and commissioning costs.

Its architecture allows easy integration with traditional supervision systems, not to mention its high availability capability with redundancy of CPUs, power supplies, supervision and control networks as well as field buses. The Series offers advanced diagnostics and hot swapping, minimizing or eliminating downtime for maintenance and ensuring a continuous production process, which is widely required on the Oil & Gas industry.

## BR2W Solutions

 [www.br2w.com.br](http://www.br2w.com.br)

### Pedro Luiz de Souza Pinto Filho

 [pedro.filho@br2w.com.br](mailto:pedro.filho@br2w.com.br)

 +55 21 97272 1617

BR2W combine the most modern technology in the development of cargo monitoring solutions, with a service that provides a high quality experience, totally focused on our customers tailor made solutions.

Load cells, B-Friction – Measurement System of Helideck Friction, Mooring Line, Load Cell Repair & Calibration, Running Lines, services like, monitoring of structural integrity of wind turbine components.

## Brasil Amarras

 [www.brasilamarras.com](http://www.brasilamarras.com)

### Jair Matos

 [jmatos@brasilamarras.com](mailto:jmatos@brasilamarras.com)

 +55 21 2729 8300

We are chain manufacturer, using FBW to produce chains up to 144mm dia, in the qualities R3, R3S and R4. We are approved by all Classification Societies and we have ISO 9001, ISO 14001 and ISO 45001 Certificates. Our products are projected for the Offshore and Naval Industry. We are part of the Spanish Group Vicinay Marine S.L. Our material is made with the last generation technology following the demands of our market segment, where we have the experience for more than 40 years and today we are the main supplier of mooring lines within Latin America.

Chain and fittings up to 144mm nominal diameter, grades R3 R3S R4 R4S.

## Camorim Group

 [www.camorim.com.br](http://www.camorim.com.br)

### Jabes Costa

 [jabes@camorim.com.br](mailto:jabes@camorim.com.br)

 +55 21 99408 8548

Founded in 1995, the Camorim Group has four operating divisions, more than 800 employees and a fleet that exceeds 150 vessels, including tugboats, barges, speedboats, LHs, PSV and AHTS. With 28 years of experience, specialized professionals and a powerful and highly maneuverable fleet, Camorim currently has a wide range of clients across of globe.

Tug Boats, Line Handlers, AHTS, PSV, Barges, Speedboats.

## Carvalho

 [www.carvalho.com.br](http://www.carvalho.com.br)

### Mirim Silvia Ferreira de Carvalho

 [msilvia@carvalho.com.br](mailto:msilvia@carvalho.com.br)

 +55 21 98868 1734

Carvalho is a very traditional company in Rio de Janeiro. And we have been working with imported and exported cargo since 1960 both at the harbor and at airport of Rio city. With 24/7 call-out availability and the highest standard of services, Carvalho Logistics services is the perfect solution for your equipment hauling needs.

Roadway Transportation, Cranes & Rigging Services, Machinery Moving, Warehousing & Logistics, Plant Relocation & Maintenance.

## Cladtek do Brasil

 [cladtek.com](http://cladtek.com)

### Murad Said

 [murad.said@cladtek.com](mailto:murad.said@cladtek.com)

 +55 21 97291 3770

Today Cladtek is the largest supplier of weld overlay Corrosion Resistant Alloy (CRA) globally and a leading supplier of CRA mechanically lined pipe (MLP).

Weld Overlay Clad Pipe, Mechanically Lined Pipe, Induction Bending, Clad Pipe Spool Fabrication, Clad Fitting And Flanges, Testing And Simulation Services.

## Clark Solutions

 [www.clarksolutions.com](http://www.clarksolutions.com)

### Henrique Ramalho

 [henrique.ramalho@clarksolutions.com](mailto:henrique.ramalho@clarksolutions.com)

 +55 11 94189 4168

Clark Solutions helps its customers around the world to keep their operations running with high level of efficiency. Providing a wide range of innovative products and solutions in mass transfer, mist elimination, and phase separation equipment serving the offshore platforms, refining, chemical, petrochemical and natural gas processing industries. Clark Solutions offers more than just design and manufacture, we have been providing mass transfer equipment services, plant maintenance and turnaround projects that overcome your most demanding production challenges. Technical competence, flexibility and commitment to the consumer are the main features leading Clark Solutions development, which combined with projects in many industrial production areas allow an exchange of experience and solutions to achieve the best outcome possible. From design concept to post sale operation, in each process step strict quality standards are pursued, always aiming to surpass our client's expectations. In an optimized structure, Clark Solutions allows total flexibility when serving the client and agility to adapt quickly to the market demands. Efforts to solve client's issues are limitless. We are committed to find a satisfactory solution to our partner's needs.

Mist Eliminators: MaxiMesh, MaxiChevron, Heliflow. Random Packing: MaxiRing, CMTP, 3-Pack. Structured Packing: MaxiPac. Liquid Distributors:Maxiflow T, Maxiflow P, Maxiflow CC. Packing Support and Limiters. Weldless Supports. Coalescers: Plate-Pack, CSMesh, MaxiPac. Inlet Devices: V-Baffle, Half-PipeCS, EvenflowCS, FoamBreaker.

## Cordoaria São Leopoldo Original Ltda

 [www.csl.com.br](http://www.csl.com.br)

### Adilson Soares Correa

 [adilson@csl.com.br](mailto:adilson@csl.com.br)

 +55 51 99123 4924

CSL is a Brazilian company internationally acknowledged as a leading synthetic fibre rope manufacturer. For over eight decades, it has been specially committed to the quality of products and services provided, making sure its customers exceeded their expectations and that long lasting connections were built.

Synthetic Fiber Ropes: Three Strands - Twisted Ropes, Eight Strands - Braided Ropes, Twelve Strands - Braided Ropes, Double Braided, Circular Braided, CSL Sierra Polyester - Deepwater Long Term Mooring.

## Core Case

 [corecase.com](http://corecase.com)

### Adriano Schwab

 [adriano@corecase.com](mailto:adriano@corecase.com)

 +55 41 9999 6249

We have developed solutions related to the design, sustainability and performance of the mineral extraction sector. We produce cases for the storage of drilling core samples in 100% recycled plastic.

Petro Case. Made from plastic 100% recycled for the oil and gas industry.

## Deep Seed Solutions

 [deepseedsolutions.com](http://deepseedsolutions.com)

### Maria Luísa Paiva de Abreu

 [luisa.abreu@deepseedsolutions.com](mailto:luisa.abreu@deepseedsolutions.com)

 +55 21 99146 1477

Deep Seed Solutions is a technology-based company leading the development of digital solutions in the offshore energy industry. Its strategy is focused on the efficiency of capital projects, the low carbon economy, and the energy transition, with a business and technology structured roadmap.

FLOCO® is an Artificial Intelligence software that generates conceptual design alternatives automatically allowing a complete analysis for both greenfield and brownfield developments, ranking the options by selected KPIs. Deep4Share® is a cloud-based web platform for offshore projects.

## Delp Engenharia Mecânica S.A.

 [www.delp.com.br](http://www.delp.com.br)

### Cristiano Caldeira

 [cristiano.caldeira@delp.com.br](mailto:cristiano.caldeira@delp.com.br)

 +55 31 9611 2400

Delp is a global leader in mechanical engineering and manufacturing of heavy steel equipment, using high technology, with a safety-oriented culture, since 1964. In the Oil & Gas segment, Delp has two Business units:

1- Anchartec Solutions is a Delp company, specialized in mooring systems for the oil and gas and wind farms markets. It offers Torpedo Piles as a mooring solution for FPSOs, risers, flowlines, subsea equipment, buoys and floating wind towers.

2 - Delp Subsea is specialized in structures for the Offshore Oil and Gas market. We deliver manifolds, including those for the Guyana projects – Liza 1, Liza 2, Payara and Yellowtail and plets, plems, jumpers, structures for FPSOs.

Torpedo-Piles, Manifolds, Plets and Plems, Jumpers.

## Durit

 [www.durit.com.br](http://www.durit.com.br)

### Ricardo Jorge Ferreira Loureiro Lucas

 [ricardolucas@durit.com.br](mailto:ricardolucas@durit.com.br)

 +55 71 99959 4837

DURIT is a family business that has been developing and producing precision tools and engineering components from carbides for over 40 years. Standard or customized, large-scale or single production: at DURIT, more than 500 employees, specialists and engineers are supporting you worldwide – with passion and dedication. DURIT has 2 production plants: one in Portugal, responsible for serving the European market and another in Brazil, responsible for the American market. In both factories we create solutions that satisfy the highest demands in terms of economic efficiency. As carbide specialists we work around the world for many industries including Oil & Gas, Chemical, Pharmaceutical, Automotive, Recycling, Plastics, Food Processing...

DURIT has also a Coatings unit, an innovative company founded in 2000. Its main activity is focused on the production of technical component coatings for industrial applications. Requires the use of high-speed thermal spraying technologies (APS, HVOF, EAWS), physical vapor deposition (PVD and PA-CVD) and Laser Cladding. To guarantee the quality of its products, DURIT has DIN ISO 9001:2015 certification. Additionally, it meets ISO 14001 and ISO 50001 certification requirements for effective environmental management and advanced energy management systems.

Hard metal parts, Coated parts, Venturi Nozzle, Valve cage, Seat, Carbide Piston, Disc Stack Segment, Bearing Bush, Front Disc, Valve Ball with Seat, Valve Cone, Valve Needle, Valve Insert, Nozzle, Mixing Tube, Shaft Protection Sleeve, Gate Valve with Seats, Impeller Wheel Plunger, Die, Counter Ring, Claw Ring, Blanks, Roller, Carbide knives, Mandrel, Punch, Bending Jaw, Milling Discs, Impact Mill Inserts, Milling Sets, Slipper, Extruder Screw Segment, Carbide button, Plugs, Profile dies, Twist plugs.

## Engemasa

 [www.engemasa.com.br](http://www.engemasa.com.br)

### João Baroni

 [joao.baroni@engemasa.com.br](mailto:joao.baroni@engemasa.com.br)

 +55 16 99727 3557

Engemasa is a Brazilian high quality foundry for special steel, supplying stainless steel and super-alloys, as cast or machined parts, pyrolysis coils, reformer tubes and tube supports. To assure compliance to the most demanding specifications in the domestic and international markets, Engemasa has several international certifications, among them ISO 9001 by SGS and AD 2000 - Merkblatt W0 by TÜV Nord Institute.

Radiant / Cracking Coils, Catalyst / Reformer Tubes, Outlet Manifolds & Cast Convection Tubesheets.

## Flexomarine

 [www.flexomarine.com](http://www.flexomarine.com)

### Sérgio Stoffel Pazinato

 [sergio.pazinato@flexomarine.com.br](mailto:sergio.pazinato@flexomarine.com.br)

 +55 11 98551 6049

The High Quality from our Marine Hoses. Flexomarine is in the Market since 1978, more than 45 years manufacturing high quality marine hoses, followed by more than 15.000 hoses.

Hoses for Onshore/Offshore - Oil Loading and Discharge Operations.

Monobuoy / Regular type hoses, Floating Hoses (double and single carcass) / Submarine Hoses (double and single carcass), Reel Type Hoses, Floating Hoses (double and reinforced single carcass) / Submarine Hoses (double and reinforced single carcass).

## Flexprin Marine

 [www.flexprin.com.br](http://www.flexprin.com.br)

### Carlos Eduardo Stteel Pellegrini

 [cesp@flexprin.com.br](mailto:cesp@flexprin.com.br)

 +55 21 98164 3868

Flexprin is the most traditional Brazilian manufacturer of Safety and Life Saving equipment and also providers of marine environmental solutions. With our own brands Angevinier, Apollo6 and Acqua, we are the only local manufacturer of SOLAS standard inflatable rafts and the leading producer of personnel transfer baskets and emergency rations.

Life-rafts, personnel transfer basket, solid and liquid ration, environmental booms and several other personal protective equipment (PPE).

## FOXWATER Houston

 [www.foxwater.us.com](http://www.foxwater.us.com)

### Luiz Eduardo Paulino da Silva

 [le@foxwater.com.br](mailto:le@foxwater.com.br)

 +13464978530

FOXWATER headquarters are located at the metropolitan region of Campinas, in Santo Antônio de Posse, State of São Paulo – Brazil. The branch located in Houston controls operations and activities in the region, with a main role at on Fracking water and oily water treatment. For 30 years we have been a specializing in solutions for sustainability. We operate in water and effluent treatment projects at industrial and domestic markets using the most advanced technologies available and combining services to provide personalized solutions to attend the needs of each of our clients.

Industrial effluents, Domestic effluents, Leached effluents from landfills, Water for reuse, Water for human consumption, Desalination, Automation, Fracking water treatment, Oily water treatment.

## Gavea Log e MRM Logistics

 [gavealog.com](http://gavealog.com) / [mrmfreight.com.br](http://mrmfreight.com.br)

### Bruno Schmidt

 [bruno@gavealog.com](mailto:bruno@gavealog.com)

 +55 21 98790 1227

Two large Brazilian companies united to offer the best integrated and personalized global logistics solutions, with excellent cost-benefit, total security, transparency, and compliance.

Serving offshore companies, develop planning detailed strategy [tax issues, logistics, customs clearance, etc.], offer an integrated solution [purchasing, global logistics, warehousing, transport, insurance, etc.]. Follow all routes of the load from the origin to the delivery, and carry out operations.

## Geowelllex Mud Logging

 [www.geowelllex.com](http://www.geowelllex.com)

### Leonardo Carvalho de Montalvao

 [leonardo@geowelllex.com](mailto:leonardo@geowelllex.com)

 +55 84 99613 1212

Geowelllex operates with excellence in drilling with qualified services in geology, formation evaluation and well engineering. Our systems, IoT and AI solutions have made us a leading company in Brazil and has growing operations worldwide.

GWLitho [Lithology Description System], Wellwatcher [Real Time Transmission System], WellexDS [Intelligent DAQ System], Wellex GOLD [Fluid Typing While Drilling System], Wellex AUTOMUD [AI System for Drilling and Geology].

## Grupo IPB

 [www.grupoipb.com](http://www.grupoipb.com)

### Gilmar Cupolillo

 [gilmar@grupoipb.com](mailto:gilmar@grupoipb.com)

 +55 21 99941 6137

IPB is the first company of the world created to develop rubber products exclusively for the Oil & Gas Industry that, with 40 years of experience in the Industry, evolved to be a complete Innovative Customized Engineered Solutions Group.

Clamping Solution, Buoyancy Modules, Flexible " T " & "O" ROV Handles, Hydropneumatic Accumulators, Bladders and Diaphragms, PIP Polymeric Pipe Coating System, Subsea Pipeline Lifting Tool, Subsea Wellhead Protector, Customized Protectors, Shear Gaskets, Non-metallic Pressure Compensators, Diaphragms, Oil Savers, Wipers and Strippers, Swab Cups, Cementing Plugs, Thread Protectors, Casing and Tubing Protectors, Fluid End Parts, Bop seals, Rams and Annular Packing.

## Hausthene Polyurethanes

 [hausthene.com/en](http://hausthene.com/en)

### Paulo Vicente Dozzi Tezza

 [paulo.tezza@hausthene.com.br](mailto:paulo.tezza@hausthene.com.br)

 +55 11 97282 8048

Hausthene has been operating since 1982, seeking to offer high quality products and service to its customers. With the support of a highly qualified technical team and prepared to develop any project involving Polyurethane, Hausthene has become a benchmark in the industrial sector, which is increasingly opting for the use of this material. Hausthene is a 100% Brazilian company, with 40 years of experience that has also been occupying the international market with its high quality parts, including in the oil and gas sector. Since it began operating in the energy sector, Hausthene has accumulated some highly successful projects with some of the main players in this market. With the API17L certification (ongoing) we seek an even greater space in this industrial sector of oil extraction. Located in São Paulo - Brazil, Hausthene has a laboratory equipped and able to develop formulations that meet the most complex projects within the Oil and Gas Industry.

Mission: To develop projects involving Polyurethane of high-quality and performance, offering knowledge and the most innovative solutions. Vision: To be the customer's first choice when the project requires high-performance polyurethane solutions Values: Build relationships with customers, employees and suppliers through ethics, transparency and empathy.

Bend Stiffeners, Bend restrictors, Cable protections, Flexible and umbilical protections, Cleaning pigs, Seals, Coatings in general, Clamps, J Tube seal, Centralizers, Cased weir joint.

## HBR

 [hbr.net/en/](http://hbr.net/en/)

### Daniel Ruivo Cueva

 [daniel.cueva@hbr.net](mailto:daniel.cueva@hbr.net)

 +55 11 98181 9741

HBR, with almost 40 years of experience in the national and international market, with a focus on distribution of equipment for the compressed air market. Due to its strong innovative profile and strategic vision, in a very short time HBR had a complete line of other products for the segment, such as filters, cooling towers, reservoirs, piping, dryers, nitrogen generators, and gas compressors.

Instrument Air Compressors API 619, Nitrogen Generators, Gas Seal Panels, Compressors.

## Iara

 [www.iarasystems.com.br](http://www.iarasystems.com.br)

### Vinicius Cesar

 [vinicius.cesar@iarasystems.com.br](mailto:vinicius.cesar@iarasystems.com.br)

 +55 81 99640 8936

Iara specializes in machine vision and analysis solutions for the offshore oil and gas industry. We develop inspection and monitoring systems that focus on the installation, loading, and clamping of flexible pipelines.

SOIS - a digital twin monitoring system for flexible pipeline installation during vertical connection operations.

ICED - an inspection system for automatically assessing the integrity of a flexible pipeline's outer sheath.

## Intcom

 [www.intcomdigital.com](http://www.intcomdigital.com)

### Alvaro Santos Antunes

 [comercial@intcom.com.br](mailto:comercial@intcom.com.br)

 +13469320751

SaaS specialized in People Logistics, POB and Staff management, Carbon & ESG tracking and Joint Ventures management.

BlueOpex AI - Operational Efficiency and Safety of Operations, BlueJv - Operations JV management, BlueCarbon AI - Carbon & ESG tracking.

# Intertechne

## Intertechne Consultores S.A.

### Rosana Ellis

 [rosana@phdsoft.com](mailto:rosana@phdsoft.com)

 +13143974682

PhDsoft offers an advanced solution for asset structural integrity that leverages cutting-edge technologies such as digital twin, IoT, and AI. Our innovative product, C4D® / Web Digital Twin®, streamlines the entire inspection, monitoring, and maintenance process, enabling digital transformation for our clients.

Our platform collects data from various sources including automated human inspections, sensors, and drones. With this information, it predicts the corrosion progress and assesses risks using advanced simulations. C4D® / Web Digital Twin® also recommends repairs and consolidates all the documentation related to the structure. By providing a clear understanding of the aging process and associated risks over time, C4D® / Web Digital Twin® reduces maintenance costs and mitigates risks and unplanned downtime. Furthermore, it facilitates business continuity and extends the lifespan of the asset. With our cutting-edge solution, clients can rest assured that their assets are operating efficiently and effectively, and that their business operations are running smoothly.

PhDsoft's C4D® / Web Digital Twin® is an advanced solution for asset structural integrity that uses digital twin, IoT, and AI technologies to streamline the inspection, monitoring, and maintenance process. #### Daniel Rodrigues Moura

 [daniel.moura@pixforce.com.br](mailto:daniel.moura@pixforce.com.br)

 +55 51 98191 0555

Pix Force develops solutions to interpret images and videos automatically, cheaper, safer, faster and more accurate than human vision. Through AI applied to computer vision, we transform images into valuable information and data.

Automatic object counting software; Automated inspection using drones to detect corrosion, cracks and other platform anomalies; Automatic PPE detection; Automatic inspection, using drones, of ore conveyor belts.

### Polar Group / Blinda

 [polarb2b.com](http://polarb2b.com) / [blinda.com.br](http://blinda.com.br)

#### Emerson Rodrigues Esteves da Silva

 [emerson@polarb2b.com](mailto:emerson@polarb2b.com)

 +55 22 99206 9626

The Polar Group manufactures Blinda Ex equipment for hazardous areas and operates, nationally, in all industrial segments where there is a high standard of demand such as: Defense, Food, Pharmaceutical, Automotive, Steel, Chemical, Machine Manufacturers, Paper & Cellulose, Sugar & Alcohol, and Oil & Gas. It is a reference in the supply of large packages for the construction of ships and platforms, power generation plants and implementation of new industries, in addition to routine support in the operational continuity of production lines, through the supply of components for MRO.

Ex equipment for hazardous areas: Connections and Accessories, Junction Boxes, Control Panels, Signaling.
